

A947 RIS

Supporting Statements

ENFORCEMENT

Commitment

Development of a Statement with partners to outline aspirations for increased enforcement along the route. Continue to work through the North Safety Camera Unit (NSCU) to enforce speeds along the route.

Timescale

Short-Medium (0-2 years)

Context

As the A947 Route Improvement Strategy is advanced, the Council will work with the NSCU and partners to enforce speeds along the A947, as well as assisting in the education of appropriate driving behaviour across the route.

Actions/Principles

Going forward, the Council will seek to:

- Develop and deliver education and awareness raising campaigns relating to driver behaviour, including safe overtaking, to support wider partner activities on the A947.
- Hold bi-annual meetings with partners at the NSCU and Police Scotland to discuss issues and agree targeted enforcement and engagement activities on the A947.
- Working with partners, proactively use social media and other communication channels to disseminate information regarding enforcement on the A947 to a wide audience.
- Undertake an annual review on the A947 to monitor the appropriateness of existing speed limits.
