Dear [REDACTED]

We refer to bid MR068 received for the Local Development Plan (2021) Aberdeenshire Council.

Since the cessation of use as a golf course the land has returned to its natural state of wetlands rough grassland and trees. It has become a wildlife haven and breeding ground for roe-deer, fox, jackdaw, magpie, rabbit, buzzard, heron, wood pigeon, oystercatcher, mallard, pied wagtail and rook.

We object strongly to any proposed development for housing on this land as it would have a detrimental impact on all of the wildlife within this natural area.

Yours sincerely  
[REDACTED]
