Main concerns are, unsuitable access for HGVs to and from site during demolition, infrastructure & construction phases during build period.

Thereafter access to & from houses via a narrow single track road which has no pavement and potentially unsafe for children going to and from school.

Increased traffic concerns to and from proposed development via Sharp / blind corner at 2 The Cornyard (which is also a single track farm road with no passing places).

Increased traffic volume passing front and side of No 2 The is a concern due to very close proximity of the track to our boundary line.

Other issues may arise once the outline drawings are made available.

At the time of purchasing 2 The Cornyard in 2018 we were advised of the possibility of 5 max houses being built in the proposed site. We would consider 5 as acceptable although access is still a major concern.
