Comment made by members in relation to sites KN022 and KN024

KN022: Concern that there will be disruption to wildlife should this development proceed.

KN024: It is questioned whether the wiring and cables relating to the existing sub-station will allow development of this site without disruption to nearby properties.

General:

It is noted that you do acknowledge the need for affordable housing in the settlement.

Luthermuir:

KN099 (formerly OP2) – This site does not contribute to an overall sense of place in the community. It is viable for agricultural purposes therefore not supported by the Community Council.

KN197 – this site preferred by the majority of those who attended the public meeting held by [REDACTED] [REDACTED] It will bring a sense of place to the community. It meets local housing needs. It will add to the primary school role and will support local services and facilities. Most importantly this site will preserve the amenity of the settlement. It will provide employment opportunity in the settlement.

It is noted that the wooded area is referred to as ancient woodland in some documents but as regenerated woodland in others. These trees are self-seeded and the area was not planted as forestation.

Concern about access to this site has been voiced – the Community Council are advised that the site owner has taken steps to ensure that this will not be an issue going forward.

No comment from community council members about the other settlements in the area.
