

Guidance 1

Community Council Membership Numbers

1. The **minimum membership** of a Community Council will be as follows:

Electorate of Community Council Area	Minimum Membership
Less than 5,000 electorate	5
5,000 electorate or more	7

2. The Council's recommended **maximum membership** for Community Councils is based on the following formula which takes into account, electorate, locality and the size of the Community Council's area.

Locality	Condition	Additional Members
Urban Community Area		
Urban 1	Population > 5,000	1 per 1,000 of electorate and part thereof
Urban 2	Population < 5,000	1 per 750 of electorate and part thereof
Rural Community Area		
Rural 1	Area > 10,000 HA	1 per 500 of electorate and part thereof 1 per 10,000 HA or part thereof
Rural 2	Area < 10,000 HA	1 per 500 of electorate and part thereof

3. The following conditions apply in terms of the figures stated in this schedule and the membership of Community Councils:
 - a. no Community Council can have the same minimum and maximum number of Community Councillors; therefore
 - b. if a Community Council has the same calculated minimum and maximum number then the maximum number will be the minimum plus 2 Community Councillors.
 - c. these membership numbers do not include Associate, Ex Officio and Junior Members
4. The recommended maximum membership of each Community Council is calculated using the formula in paragraph 2 above and the results are set out in the tables below. A Community Council can request an alternative maximum membership number by applying to the Area Manager with the reasons for the change. If the Area Manager refuses the Community Council's request, the Community Council has the right to appeal the decision to the Area Committee. The same process shall apply as in Section 14.8 of the Scheme.
5. The Community Council shall state their membership numbers in their constitution.
6. The map and tables below detail the current electorate and boundaries and do not form part of the Scheme. If boundary changes are approved by an Area Committee or an official change in electorate numbers require an operational change to the table, this administrative matter will be dealt with by the Area Manager
