

Are you a	Do you support the move of Fraserburgh North School to the New Primary School?	Do you support the move of St Andrews School to the New Primary School?	Do you support the merger of Fraserburgh North School and St Andrews School within the New Primary School?	If it is decided to merge Fraserburgh North School and St Andrews School within the new Primary School located at the Fraserburgh Academy site, in your view, what are the most important issues that would need to be considered?	Any other comments
Teacher/Staff Member	Yes	Yes	Yes	Sufficient support staff to deal with the pupils with behavioural and social needs. Perhaps a SEN or behaviour base/nurture facility.	
Teacher/Staff Member	Yes	No	No	leadership shared visions and values from both schools and how we come together as a new team for children parents and staff parking safety our primary children being exposed to older children's anti social behaviour	
Parent/Carer	No Preference	No	No	About academy pupils behaviour, bullying, fighting and other stuff which will affect primary pupils mental health	
Parent/Carer	No	Yes	No	It is merging 3 separate school buildings into one so would push for larger class capacity which could impact learning. We currently have at least 2 classes per Primary year which are generally at capacity are more going to be added to each year (increasing class sizes) or does it mean potentially 3-4 classes per school year.	
Teacher/Staff Member	Yes	Yes	Yes	Transition for the pupils beforehand. Space for outdoor learning and play, separated and safely away from academy pupils. Safety gates/doors so public and academy cannot access school grounds easily.	
Teacher/Staff Member	Yes	Yes	Yes	Transport management - congestion, parking, safety	I very much welcome the merger and the siting of the new school on the Fraserburgh Academy campus.
Teacher/Staff Member	Yes	Yes	Yes	That adequate provision is made for children with additional support needs. This is NOT the case currently at Fraserburgh North School - we do not have enough staff to manage the ASN children we have.	I want to know if there is the option to redeploy to other school in the cluster. I do not know if I wish to work in the new school.
Parent/Carer	No	No	No		
Parent/Carer	Yes	Yes	Yes		
Pupil	No	No	No	Safety of the primary pupils, as the academy has many people who vape, smoke, do drugs, often these things end up outside of Fraserburgh academy on the grass, where the primary school would go. another thing is with such close proximity school bells would interfere with each other, making it unclear whose bell was heard. This school also takes away the different areas covered by these schools, as if this merge happened, all Fraserburgh schools would be in a small circle around the academy. With new houses being built on the bypass this creates a problem for children who wish to walk home. Also with houses on Watermill road and houses down at the harbour, this creates the same problem. This school would also have to be huge to merge these two schools and be prepared for other students to move schools at any point in primary, and join this school at Primary 1.	Do not go ahead with this, people are already cold as it is, they don't need to walk a mile in the winter.
Ward Councillor	Yes	Yes	Yes	The traffic flow in the area. The plans for the existing school buildings. The provision of the nursery. The interface with the Academy.	
Community Member	Yes	Yes	Yes	Continuity of staff ,opportunities for staff and pupils to work together for extended period before the site is complete.	
Teacher/Staff Member	Yes	Yes	Yes	all staff including support staff meet up on regular basis towards the merge of the schools	
Teacher/Staff Member	Yes	Yes	Yes	Traffic	
Teacher/Staff Member	No Preference	No Preference	No Preference		
Teacher/Staff Member	Yes	Yes	Yes	Smooth transition of both staff and pupils. Meetings arranged for the pupils to get to know each other. Involvement of the pupils at all stages - it is their school too, their views are important. Clear timetable of up to date building and occupation progress shared with all.	
Teacher/Staff Member	No	No	No	The location isn't the best going up next to the academy. I would be concerned that some pupils would not cope with the change. The new class sizes is a concern being too big with being used to smaller class sizes which are better than great big classes where children could be missed accidentally if they are having any struggles ect. Also I think both schools are better off being updated and fixed if needed rather than a whole new building.	
Teacher/Staff Member	No	No Preference	No		
Teacher/Staff Member	Yes	Yes	Yes	*Lunch time timings e.g primary pupils not outside when academy pupils are walking past. * The school being a merger and not one school getting a new building and the other is simply joining. *The most appropriate, enthusiastic management team.	
Teacher/Staff Member	Yes	Yes	Yes	Ensuring that there is sufficient provision for children with SEND and behaviour that challenges.	
Teacher/Staff Member	No Preference	No Preference	No	Car parking and ensuring a secure separation between the primary and academy schools.	
Teacher/Staff Member	No	No	No	Staffing. Security, a lot of levels of high tariff children. In a larger school it will be harder to maintain this. Parking. Academy children and primary children mixing - behaviours! Vandalism. A lot of our children come to our school as it is smaller and less overwhelming than a bigger school. We have a homely environment and I worry this is lost in a bigger school. Stereotypes of both schools for both staff and children. The vicinity, is it going to work for our parents and children. A lot of our children walk to school as they don't have their own transport, is this going to affect them. A lot of them take themselves to school also so the build up of traffic for academy as well as the new school is a huge concern.	A new build school would be great, however it is a worry it will come at the cost of losing a truly homely environment of a school. Our children (and parents!) Feel safe, loved, wanted and supported at our school. In a new build on a severely larger scale, it's a concern that this environment that we have worked so hard to build is lost.
Teacher/Staff Member	No	No Preference	No	Parking Litter Staffing	

Are you a	Do you support the move of Fraserburgh North School to the New Primary School?	Do you support the move of St Andrews School to the New Primary School?	Do you support the merger of Fraserburgh North School and St Andrews School within the New Primary School?	If it is decided to merge Fraserburgh North School and St Andrews School within the new Primary School located at the Fraserburgh Academy site, in your view, what are the most important issues that would need to be considered?	Any other comments
Teacher/Staff Member	No	No	No	Parking, traffic flow. Behavioural issues within both schools.	The 2 schools in the town with severe behaviour problems & these are the schools to be merged??!! Nonsense in my opinion
Parent/Carer	No Preference	Yes	No Preference	Class sizes - although I understand there are maximum sizes, consideration should be given to challenge of merging schools so further reduction in class sizes should be considered. Additional support needs provision needs to be enhanced. Traffic congestion and start and finish times. Future proofing the provision - build for additional capacity not just what is there just now.	
Community Member	No	No	No	Restoration and continual use of current school buildings	
Parent/Carer	No Preference	Yes	No Preference	Important to separate teenage pupils from primary or Nursery aged children and likewise separate start / break / end times. Very problematic traffic concerns if times are all the same for all school years. Separate path for each school, fences to separate them. Improvements to transport, perhaps parents wouldn't take a car if there are better public transport options available or drop off zones.	Generally supportive of a new modern primary school. St Andrews building would benefit from being converted into a community space and I'd opt to invest in new state of the art Nursery facilities
Parent/Carer	Yes	Yes	No Preference	Traffic flows with two big schools together and parents picking up kids, and more cars trying to get to same place with residential houses nearby? bullying would be my biggest main concern with drug issues and vandalism	Is there anywhere else that a new school could go that wasn't on academy grounds?
Parent/Carer	No Preference	No Preference	No Preference	I don't agree with a primary school being that close to the academy, between the added traffic being a major issue as well as children as young as 4 hearing and possibly seeing negative behaviours and language from teenagers as old as 18. I agree a new school is needed however do not think this is the best location for it.	
Teacher/Staff Member	No	No	No	Younger kids being beside academy kids, congestion of traffic on denneduff road	
Parent/Carer	Yes	Yes	Yes	Traffic and the safety of the children at drop off and pick up	The primary children mixing with the academy children during breaktimes
Community Member	Yes	Yes	Yes	That the school is designed around the needs of the children/community. Teaching staff from the schools should be asked to help design the school as they know what they need best.	
Teacher/Staff Member	Yes	No	No	Parking , outdoor space and how they will bring 2 schools together with 2 schools that work very differently	
Parent/Carer	No	No	No	Travel. At the moment the schools are within walking distance for both area	I would rather the school stated the as it's currently in walking distance Plus joining the schools will this mean the classroom will have too many children (overcrowded)
Parent/Carer	Yes	Yes	No	Volume of traffic within academy area.	School still too far away for primary age children to walk to either with parents or by themselves. The real area a school is needed is up by the new houses where abundant children in the area can walk. This has long been a ridiculous concept where these children attend st.andrews which arguably is further away then some country children who get the added benefit of school transport provided. No such thing for town children travelling same distance.
Parent/Carer	No Preference	Yes	Yes	Traffic infrastructure	Much needed new school. The current condition of st andrews buildings are poor so welcome and support new school wholeheartedly
Parent/Carer	No	No	No		
Parent/Carer	No Preference	Yes	No Preference		
Community Member	Yes	Yes	Yes	Zoning and traffic management	
Parent/Carer	No	No	No	The merge of both schools creating one large facility which no child is used to. Access Academy age pupils being around the building Parking Large class sizes This will bring a huge amount of traffic and pedestrians to the street which houses all 3 emergency services within a stones throw of the planned site. The car park plans are inadequate for the size of the school and there is nowhere near enough room for the parents dropping off and collecting. The site will provide a very limited playground for the number of children. The earmarked site stands full of water for much of the year and the houses across the road have pumps running under their floors constantly to deal with the water issue, as is the Academy switch room. The social issues in Fraserburgh are unlike those in other towns where a primary/secondary campus has been successful- behaviour in and around the Academy is disgraceful. No parent would want their youngsters exposed to such disruptive and anti-social behaviour. The combined catchment areas will serve areas in all deciles of the SIMD index from 1-10 and I can see why many staff would be completely against this, particularly those from the North who work hard to create a nurturing, fully inclusive environment. The whole sense of community	I have specifically requested an out of zone school because of this merger
Parent/Carer	Yes	Yes	Yes		
Community Member	Yes	Yes	Yes	Parking	
Community Member	No	No	No	How to keep the Academy Pupils and Primary pupils separate.	I am deeply concerned that learning in the primary school will be disrupted by older pupils hanging around during lunches and breaks and when truanting. This is the wrong site.
Parent/Carer	No	No	No	Road safety Parking provision Drainage	Would be a shame to see 3 beautiful traditionally built structures with lots of local history left empty and disused as a result of this proposal
Parent/Carer	No	No	No	Bullying	

Are you a	Do you support the move of Fraserburgh North School to the New Primary School?	Do you support the move of St Andrews School to the New Primary School?	Do you support the merger of Fraserburgh North School and St Andrews School within the New Primary School?	If it is decided to merge Fraserburgh North School and St Andrews School within the new Primary School located at the Fraserburgh Academy site, in your view, what are the most important issues that would need to be considered?	Any other comments
Community Member	Yes	Yes	Yes	I agree that it is a good idea to merge the 2 schools but I do not agree that it is the best site for the new school there is not enough room and the congestion would be awful, and a primary school being so close to a secondary school in my opinion is not a good idea knowing what goes on in fraserburgh academy and what the younger kids could see going on	
Parent/Carer	No	No	No	Access to drugs as large amount of dealing occurs around school gates via Snapchat / social media- could lead to exposure of very young children Traffic - this site will not handle the volume of traffic - surrounding streets - like union grove already struggle with traffic 3 major schools will then be located within 2 street - children from boundaries / deprived postcodes will struggle to get to school. Children will be in much larger school in a time when would benefit from smaller schools and smaller classes increasing exposure to bullying / peer pressure and currently violence. Parking for teachers / access to outdoor spaces - as well as a school increased parking for staff will be required reducing land around the school for sports for both academy and primary - if parking isn't available school will struggle to attract staff especially as public transport to fraserburgh is appalling.	
Teacher/Staff Member	Yes	Yes	Yes	Adequate safety measures for children's crossings as Dennyduff Road is extremely busy. Adequate parking for staff at new school grounds	I totally agree with the new school as I feel the age and facilities St Andrews School offer at present are inadequate for children's safety and education and as for playground facilities, they are non existent
Community Member	Yes	Yes	Yes	Traffic flow	
Parent/Carer	No	Yes	No	A lot of pupils will move to different schools if schools are merged. We are really unhappy about this decision.	
Community Member	No	No	No	Bad idea in academy grounds. Wid hae lots of issues we bullying as issue anoo we drugs? Oor young kids dinna need to be subjected to that	Police will never be awa fae the place and the traffics gonna be heaving we a the mams picking up the bairns?. Kids are awa fae it a noo and bloody vandalising a the schools? and putting them a the gither is going to mak it a bigger place and target for them ti hing out at? And Dee heaps mare damage? Will end up as a place for them to a run along a the roofs ? Winna be lang afore there's gonna be a death at one of the schools. Tell the police and the dinnae de bugger all
Community Member	No Preference	No Preference	Yes	Don't think it should be at academy grounds. Needs to be rethought. Older kids bullying younger kids. I have one kid at southpark and another in academy, and both of mine are being bullied by academy kids. When you do anything about it, the school tells you that there is no bullying or drugs going on, but the other teachers and folk tell you that they can't do anything, and kids know they can get away with anything these days? They come round at dinner time and shout at the bairns from the gates and call them all the names and make a right nuisance. My youngest bairn is petrified to go to academy, and I'm actually considering pulling my older bairn out of academy as it's affecting his mental health	Look for other grounds somewhere else? What about up the bypass as new houses being built up there?
Pupil	No	Yes	No	I dont want to leaf my school as its a good school and my teachers are good and I am happy coz I was at anuther school and was unhappy there please dont put me to another school again as I have friends now in the hub	I dont know
Parent/Carer	Yes	Yes	Yes	Ensure traffic control has been thought out well. What will happen to existing buildings?	As a parent at St Andrews and a member of the school PTA i know first hand that our school is no longer fit for purpose therefore im 100% behind the merger. I do feel if parents actually understood the state of the building and could see what is on offer then you will have more support. Due to covid a lot of parent have not been inside the school or if they have it's been on very few occasions, they are not aware that the toilets are smelly due to old plumbing, WiFi is hard to connect as building are old and split, the building is in poor condition inside and out! We cannot hold a full school assembly as the school is too small, kids have to take shifts for lunch as the canteen holds 80 kids but both schools hols around 300!! These are just some things I have knowledge of as im a PTA member and have been for 10 years if other
Teacher/Staff Member	Yes	Yes	Yes	adequate size for numbers of pupils in the future good staffing levels good p.e. facilities, all weather pitches	
Parent/Carer	No	No	No	classrooms/class sizes cannot be too large	
Parent/Carer	No	No	No	The childrens wellbeing to much children in one school is too daunting and to close to academy for the younger ones.	I do not agree with the move as they are suited in the one they are currently at. Far too much children joining the 2 schools together. My child will be to scared with the move and i do not agree and there is no parking as is.
Community Member	Yes	Yes	Yes		
Parent/Carer	No Preference	No Preference	No Preference	Transport and ease of access.	
Community Member	No	No	No	The Fraserburgh Academy site already has parts added to it and not suitable for more plus the problem of flooding on site.	These schools have significant historic value and the money would be better spent upgrading them.

Are you a	Do you support the move of Fraserburgh North School to the New Primary School?	Do you support the move of St Andrews School to the New Primary School?	Do you support the merger of Fraserburgh North School and St Andrews School within the New Primary School?	If it is decided to merge Fraserburgh North School and St Andrews School within the new Primary School located at the Fraserburgh Academy site, in your view, what are the most important issues that would need to be considered?	Any other comments
Community Member	Yes	Yes	Yes	That proposed site has adequate room for the school, playground space and parking for staff/parents. Parking issues in the wider area if this is not provided on site. Road safety in general with increase in number of children, parents, staff and cars in the area. Is site suitable for building re drainage/flood risk? Also worries about plans for the old buildings especially the former Infant School on Dennyduff Road and what would be done with this historic building and grounds as this could have a detrimental effect on residents.	It would be useful if any plans for the old buildings were made public as soon as possible, as this may affect how the public view the plans in general - before any formal plans are in place and commitments made.
Community Member	Yes	Yes	Yes		
Teacher/Staff Member	Yes	Yes	Yes	staff and pupils, building relationships and creating a new school community	
Teacher/Staff Member	Yes	Yes	Yes	Integrating staff and children before merger
