Hi Fiona,

Thank you for taking the time to bring me up to speed with your ideas and plans.

I think that the idea is excellent, and would bring additional life and focus to the middle of a Town facing its own challenges.

If we can be of any further assistance in making these ideas a reality then please do not hesitate to get back to us.

Hi John

Good to talk to you just now.

Here is the gist of what we would like to do. We would like to submit an expression of interest for an Asset Transfer (lease) to Aberdeenshire Council for a property within the town centre of Huntly. It is just in it's early stage as yet however what we would like to use the building for is shown below.

Our use of the building will benefit the community by providing an accessible venue for community engagement and interaction, within easy walking distance of public transport routes and of the town centre. It will allow us to consolidate a number of projects and activities and therefore make attending these activities easier for those participants who live in the residential or care homes within the town, as well as for those who have limited mobility. It will, additionally, provide us with an opportunity to link more closely with our local schools to further develop and deliver opportunities

such as Counselling or Mindfulness classes to pupils from Primary school through to Secondary School.

If this is something Balhousie would be willing to support us with 'in principle' (no strings attached) could you please let me know. If the EOI is accepted we would need to look at a full application and at that stage we would ask for a letter of support.

Kind regards

Fiona
