Your comments

- [REDACTED] are objecting to the plans to build ten houses in the field behind [REDACTED]
1. New Byth is a small community with no amenities
 2. Our drainage system is already under immense pressure to cope with existing dwellings.
 3. The road proposed is at a concealed junction there has been a number of near misses.
The road proposed is also used by buses and by us and our next door neighbours. Excess building work could affect the fabric of our houses with the increased lorries.
 4. Part of the road is owned by myself and my neighbour which we use to park our vehicles. This would result in a very narrow road.
 5. We would be severely disturbed by noise and building work for a long time.
 6. When years ago planning for these houses the access road was to be at the end of Urquhart road which would have been a better option and not increased the danger at the crossroads.
 7. There are other sites in the village that have space to build, without impinging on residents. But would still need greatly improved drainage.
 8. At present there are several properties on the market in New Byth that are up for sale. Some for over 2 years. There is no market for new houses in a village with no amenities.
