Your comments

I am writing on behalf of [redacted]
who lives [redacted]

My comments relate to the ground designated M068 which was formerly part of the Inchmurla Golf Course, now disused. This ground is at the back of [redacted] house and indeed her kitchen overlooks this ground to the North.

On behalf of [redacted] I would like to make the following comments.

1. Her house is in a very peaceful and secure retirement "village" and she is worried about all the construction noise that would be associated with any development of this land for housing.
2. [redacted] is worried about the security aspect of having "mixed houses" near by who may bring an undesirable element of occupants to the area.
3. Currently there is a row of trees that screen the houses along the North of the Courtyard and she is worried that these trees may be felled were this development to go ahead. Would the trees have a preservation order? - would they be protected in some way?
4. Any housing development in M068 would bring increased traffic into a retirement village area and [redacted] is not happy about that aspect of the development.

Your comments (continued)

5. Lastly, I am a Chartered Civil Engineer and have walked on this land (MR068) and I have to say it is extremely wet and boggy and not well drained at all. Were this land to be developed it would need extensive drainage and associated construction noise and disturbance. I would be worried that any development of this land would have knock on effects on the existing housing / drainage within the Re Carland area.

It is very wet land and indeed may require piling operations for house building and this relates to [REDACTED] comments about noise from construction works.

I hope these comments will be taken into account when discussing any proposal for developing this land (MR068) for housing which [REDACTED] wishes to object to in the strongest possible terms.

Could you please acknowledge my comments by return email [REDACTED] or by mail to [REDACTED]
