BANCHORY PATHS ASSOCIATION.

Re: Aberdeenshire Local Development Plan: Main Issues Report 2019.

As Secretary of the Banchory Paths Association I am responding, on behalf of the Association, to the Main Issues Report. Our concerns are confined to any impact upon existing footpaths and there is one area that has attracted our attention.

MR056 and MR062 both are crossed by important footpaths much used by the community and giving important connections to the footpath network of Corsee Woods. The path from Upper Arbeadie Road is a Core Path leading to the Glen O Dee Hospital and we also believe this could be an ancient Right of Way.

We note that both these areas are not high on the development priorities list and do present a number of difficulties to any developer, but nevertheless we think that your attention should be drawn to these existing paths. If any development was proposed the integrity of these paths should be preserved as independent foot ways and not become footpaths alongside roads. Clearly this could be achieved with sympathetic, environmentally conscious treatment during the development.

The path from Hillcroft Road leads up to a well known and loved site of Sunset Seat the open eastward view from which has become rather obscured of recent years due to tree growth, but with some clearance, could once again become a viewpoint. Any development should take the opportunity to preserve this site and enhance it and not block the view.

Secretary Banchory Paths Association
