Turriff Demographic Data

Map of Turriff: Population Change (2014-2021)

Low Growth / Depopulation High Growth

The population of the Turriff IZ decreased by 6.9% between 2014 and 2021. This is mainly down to the population shifts in DZ S01007020 where there was a decrease of 117 (16.0%) and DZ S01007017 where there was a decrease of 65 (6.8%).

Compared to 2014 Turriff has seen significant decreases in most age groups especially with the 0-9 age range with a 14.8% decrease and a 19.8% decrease with the 20 – 29 age range.

At 57.9%, the proportion of Working Age people in the IZ is below the average when looking at the spectrum in an Aberdeenshire context.

At 15.8%, there is a lesser proportion of children in the IZ is than in most other areas across Aberdeenshire.

At 26.4% the number of older residents in the IZ is higher than most other areas of Aberdeenshire.

In all the DZ's that have seen population decreases this is mostly down to a drop in children and working-class age groups.

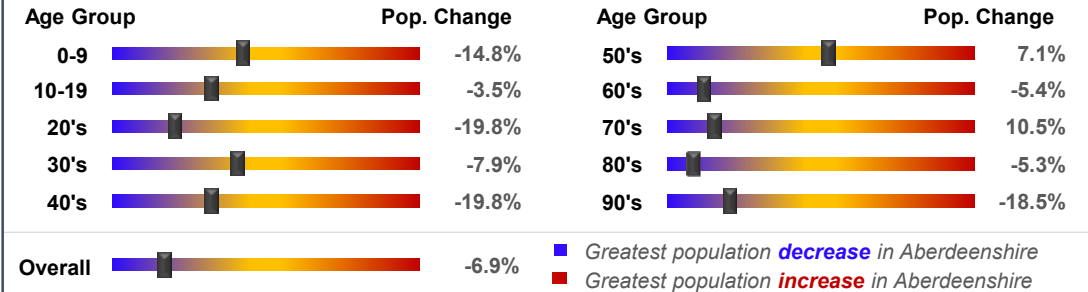

Population Change per Data Zone, 2014 & 2021

Data Zone	2014	2021	% Difference
S01007017	953	888	-6.8%
S01007018	964	940	-2.5%

Premature births	9.0	-0.3%	0.8%	Up	% of all live births	
Uptake of the HPV vaccine in S3 girls	84.6	-4.8%	-0.2%	Down	% of S3 girls	

Based on the 24 health-related indicators in the table, this IZ is situated at the more vulnerable end of the spectrum (39) in an Aberdeenshire context. The IZ fares slightly better when all IZs in Scotland are taken into consideration as it is in the top half nationally (63).

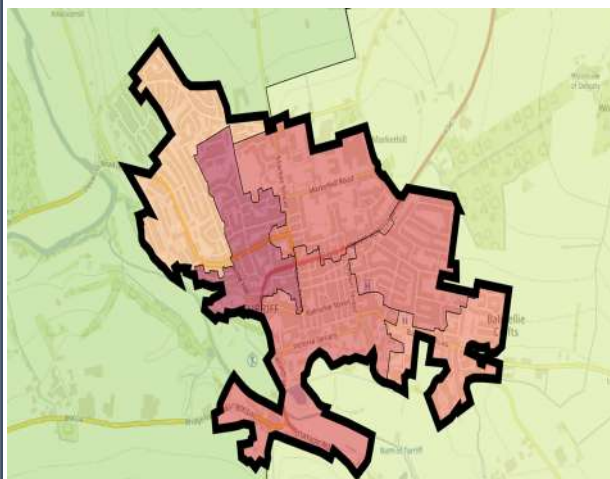

The area compares favourably to most other areas in Scotland in terms of Alcohol-related hospital stays, Healthy birth weight, Patients hospitalised with asthma.

- Issues that may require further investigation include:
- Child dental health in primary 7
 - Child dental health in primary 1
 - Patients hospitalised with coronary disease

With regards to each of the indicators listed above the IZ compares less favourably to other areas in Aberdeenshire and, in some instances, Scotland (and/or the trend is worsening).

Turriff Economic Data (1 of 3)

Rank of Household Income per Data Zone (2023)

In terms of household income, this IZ is among the poorest in Aberdeenshire. The median household income in 2023 equated to £30,689 which is £11,067 lower than the Shire average (£41,756).

Median household income ranges from £27,340 in DZ S01007017 to £35,589 in DZ S01007018.

Approximately 8.7% of households in this IZ earn less than £10,000 per year, which is higher-than-average (5.3%). This equates to roughly 185 households.

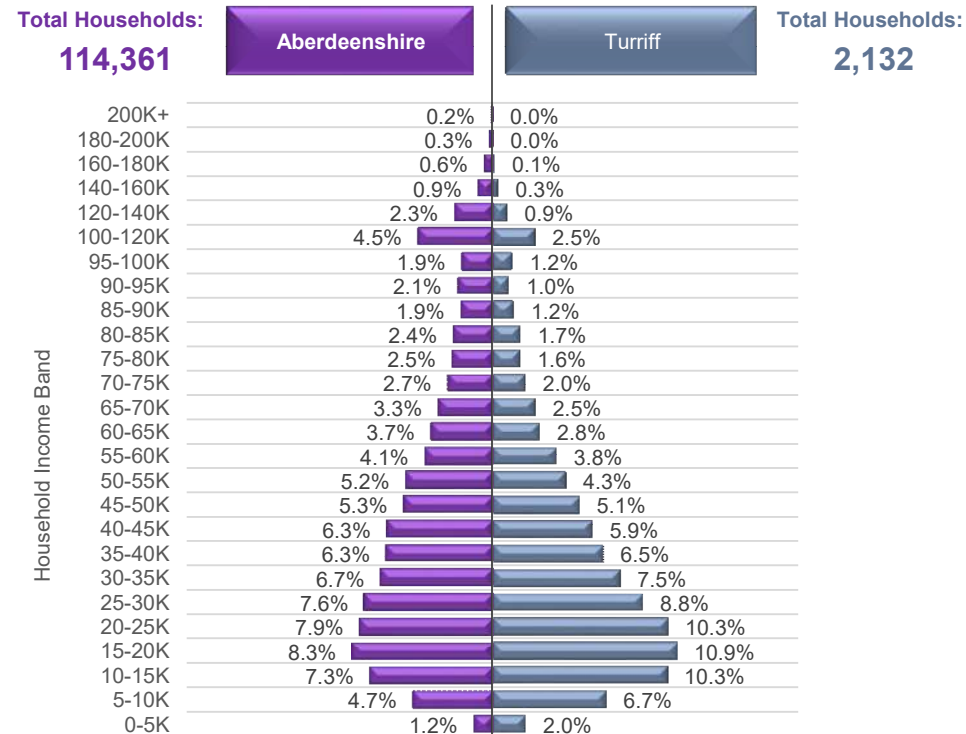

In addition, Approximately 3.9% of households in this IZ earn more than £100,000 per year, which is lower than average (10.1%). This equates to roughly 83 households.

Household Income per Data Zone (2023)

Turriff Economic Data (2 of 3)

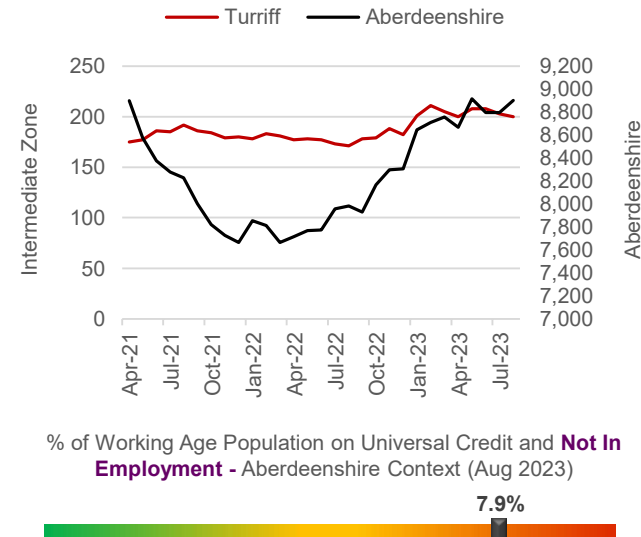

Latest Unemployment Rate - Ranking per Data Zone

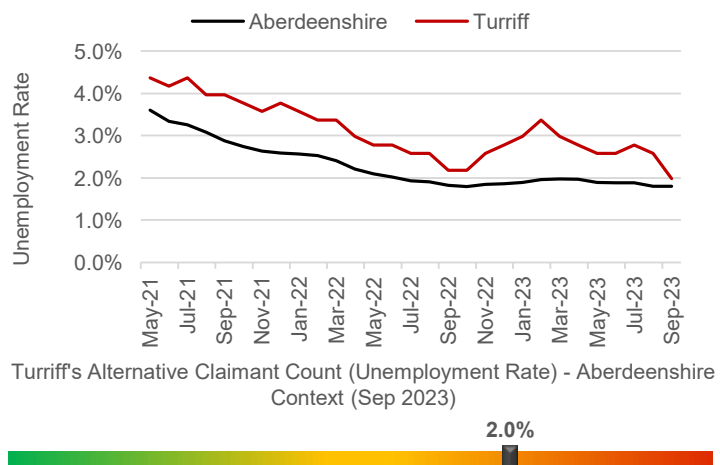

People on Universal Credit - In Employment

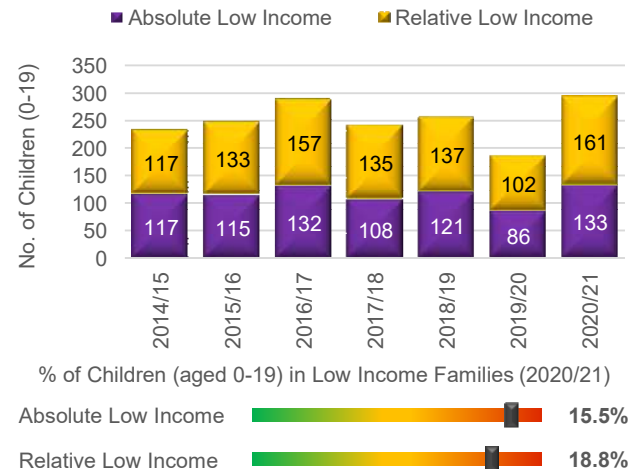

People on Universal Credit - Not In Employment

Alternative Claimant Count - Effective 'Unemployment Rate'

Children in Low Income Families

Summary

The number of people claiming Universal Credit (UC) - who are also in employment - has remained relatively steady over the last few months, contrary to the Shire-wide trend, which has increased. Latest figures show 5.6% of people aged 16-64 (who also have jobs) are claiming UC. This is towards the top end of the spectrum in a Shire context. A similar picture emerges in relation to people on UC and not in employment.

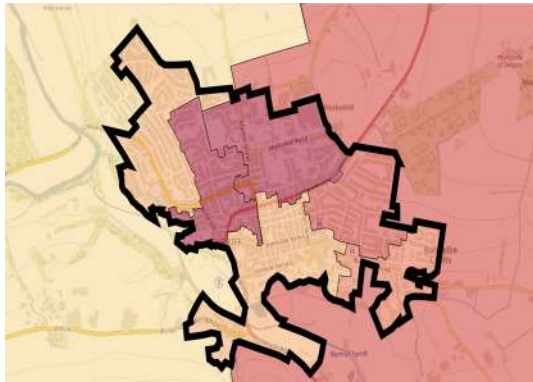

Like Aberdeenshire, the unemployment rate in the IZ has fallen substantially since the September 2020 peak of 3.8%. Latest data suggests approximately 2.0% of the Working Age population is currently out-of-work, which is almost identical to the Aberdeenshire rate (1.8%).

Children living in low-income families are relatively uncommon. However, recent increases suggest the issue may be coming more to the fore over recent years, particularly since 2020/21.

Relatively low Relatively high

% of Employees per Qualification Type

Summary

The employment numbers per broad industrial group relate to the kind of jobs within the area, which may be filled by those living outwith the IZ.

Major industries in terms of jobs in the area include the Manufacturing sector, the Health sector, Retail and the Education sector.

There has been a large growth in Agriculture and Manufacturing sector. Jobs in this industry have doubled since 2020.

Even with the growth in these type of jobs, there has been a 29% decrease in jobs across the IZ between 2020 and 2022, suggesting this IZ was one of the hardest hit since the pandemic and has struggled post-Covid.

The area also appears to have attracted a number of enterprises over the most recent year (i.e. companies with sales between £200k - £499k).
