I welcome these two smaller developments, which in particular are both an extension to an existing group of seven houses. There is a limited availability of this type of rural setting development in close proximity to Aberdeen. Also the local school is easily accessible by both sites.

New properties have the advantage of better energy ratings, solar gains and more efficient running costs.

I also support construction by local builders rather than larger national firms. Having previously owned a property built by such a firm, I encountered several issues which were near on impossible to get resolved. I believe a local builder takes greater care to build on their reputation in the area.
