MR075 - I would like to object to omitting the football pitch at this site.

The Community club has been in existence since 1979 (initially, just as a Boy's Club) and within that time there has not been any allocation of space designated for the clubs sole use. The members have increased and continue to increase with an unforeseeable decline. In more recent times the club has also opened itself up to support walking football, frame football and girls football which encompasses the entire community. The need for this area in MR075/OP1 is essential to the club. I would like this space to be retained for Community club within the space designated at MR075, in order to house an 11 aside pitch as a minimum and create a multi-sport complex for the whole community (partnering with Deeside Rugby Club).

MR082 - The area is a concern as it is located with in the Local Nature Conservation Site which maybe a potential concern for the wildlife with in and around the area. In addition, the road would need to be improved in order to access the site and it would be essential to have artificial lighting in the winter months. This is not a suitable site for football or in the best interest for the community and I'd like for the M075 proposal or an equivalent site with exisiting infrastructure and assigned usage to be provided.

MR080 - Heath Care - I would to highlight to the planners that within this area there is a football pitch and play park that is highly used by the community. I hope that a stipulation will be put into place that these areas will be replaced and in working order prior to construction.

MR053 - I would agree with the planners that this area be retained for the future site of a school.
