Dear Diane,

Response to Public Representations for the Community Asset Transfer of the Mill of Benholm

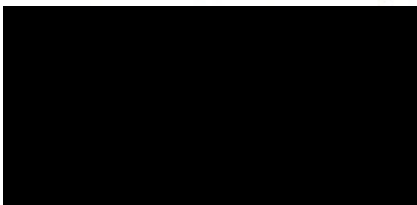

Thank you very much for passing on the Public Representation Report for this Community Asset Transfer Request.

We would like to take the opportunity to thank everyone who took time to submit a representation in support of this Community Asset Transfer and we note that there have been no objections at all.

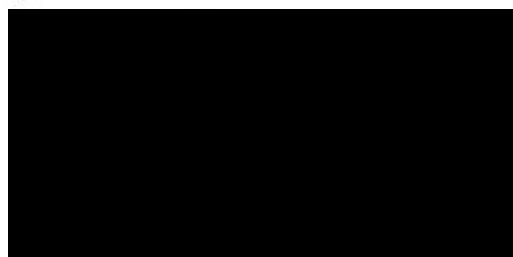

Reading the representations shows not only the strong support within the community for this Community Asset Transfer and the revivification of the Mill of Benholm, it shows also the strong recognition of the Mill of Benholm as a important historic landmark in the community which needs to be safeguarded for generations to come and the trust of the community into the Mill of Benholm Enterprise to restore and safeguard the site in line with the wishes of the community and to operate it as a community hub and visitor attraction for the benefit of the entire community.

Kind regards

Mill of Benholm Enterprise (SCIO)
